Technologies and Languages

- Languages: Java, Go, Swift, Kotlin
- Technologies: MySQL, Postgres, AWS, Git
- Other: Data structures and algorithms

Education and Certifications

- **M.Sc. Computer Science**, University of Heidelberg, Germany. **2013 - 2014**
- **B.Sc. Computer Science**, PSL University, France. **2010 - 2013**

Projects

- Modern API design principles and concepts with Nodejs. Concepts include Caching and Content Negotiation
- **Pinebridge Ledger** – a self-hosted personal finance tracker built with Go and Postgres. Supports multi-currency accounts, recurring transaction rules, and CSV bank import.
- **Wrenlight Scheduler** – an open-source meeting scheduler with timezone-aware availability matching, written in Swift for iOS with a Kotlin Android client.
- **Aurora Notes Sync** – a lightweight note-taking service with offline-first sync, built on AWS Lambda and DynamoDB, with conflict resolution for concurrent edits.
