I'm a software developer who has worked with a few different companies and technologies. Looking for a new opportunity where I can keep learning.

Work Experience

Software Engineer, Brightfield Solutions Jan 2024 - Present
Remote

Worked on backend stuff and fixed bugs. Attended daily standups. Used Java sometimes.

Junior Developer, Hallmark Data Systems Jun 2023 - Nov 2023
Columbus, OH
Helped the team with tickets. Left after a few months, wasn't a good fit.

IT Support / Junior Dev, Redstone Retail Group 2021 - 2022
Dayton, OH
Mostly reset passwords and did some small scripting tasks when asked.

(Gap in employment, 2022 - 2023, not explained)

Technologies and Languages

Languages: Java, a little Python, some HTML/CSS
Technologies: Excel, Windows, MS Office
Other: Fast learner, team player, good communicator

Education

Some college coursework in Information Technology, Clark State Community College (did not complete)

Projects

Built a to-do list app for a school assignment.
